Myers, Jr. and set this matter for status.</p> <p>Amended Letters of Administration with Will Annexed were issued on 06/05/13.</p> <p>Status Report filed 11/06/14 states: most of the property was distributed to the beneficiaries in a preliminary distribution by order of this Court on 06/02/05. The estate contains a bank account with a balance of \$152,980.00 at this time. The Court also allowed the Co-Administrators to form an LLC to hold the remaining assets of the estate, namely, four parcels of environmentally contaminated real property. Pursuant to the Court's order, the Elm & Church, LLC was formed and currently holds a bank account with a balance of \$50,000.00 as well as the four parcels of real property. At the time of decedent's death, an environmental contamination problem related to previously installed underground fuel storage tanks had been discovered and was in the process of being analyzed and remediated by the Decedent utilizing Krazan & Associates ("Krazan"). Krazan determined the existence of contamination from the underground fuel storage tanks and enrolled the property in the State of California Environmental Cleanup Fund, which reimburses property owners for expenses incurred in the identification, analysis and remediation or underground storage tank contamination. Remediation efforts on the property has been ongoing.</p> <p>Continued on Page 2</p>	<div>NEEDS/PROBLEMS/COMMENTS:</div> <div>CONTINUED FROM 11/20/14</div> <div>As of 01/05/15, nothing further has been filed.</div> <div>1. ---	---	--

Status Report filed 11/06/14 (con't): During the administration of the estate, Krazan determined the nature and extent of the environmental contamination and commenced procedures for the remediation of the contamination discovered. All expenses incurred by the estate in connection with the valuation and remediation of the contamination have been reimbursed by the State of California.

As reported in the Petition for Preliminary Distribution filed 03/16/05, the estate's membership interest in the LLC would continue to be held in the estate pending final resolution of the environmental concerns, since distribution of the LLC membership interest to the beneficiaries could expose the beneficiaries to the potential for individual liability, or actual individual liability. In her last status report, the Administrator reported that she thought the remediation could be completed within 3 to 4 months. However, the California Regional Water Quality Control Board – Central Valley Region ("RWQCB"), after inspection of the Property, refused to qualify the case for closure and did not provide a closing letter. The RWQCB instead requested further remediation as well as a study to determine whether current concentrations of petroleum hydrocarbon constituents ("PHCs") on the property pose a threat to human health. The Administrator asked Krazan to provide remediation proposal to the RWQCB, which it did on 02/28/14. The RWQCB has issued a statement that "case closure may be appropriate" for the property. It issued a "Preclosure Public Notification" on 05/21/14, which stated that a "Public Notice" proposing the site closure would be mailed to certain interested parties. The Notification stated that the case would be open for public comment until July 20, 2014. Upon completion of the public comment period, and in the absence of substantive comments against closure, the RWQCB will perform a closure inspection of the Property and issue a case closure letter.

No comments were received from the public and the RWQCB issued a letter to Monique Hutchings stating that the wells on the property should be destroyed and the site should be restored before a closure inspection by the RWQCB would occur and a closing letter would thereafter issue. The closing letter finally issued from RWQCB on 10/13/14 and Monique Hutchings may now sell the property. Therefore, Monique Hutchings respectfully requests that a status hearing be set at least 2 months from this date in order to allow time for the sale of the property and prepare and file the Petition for Final Distribution.

Duties/Supp		
Objections	There is a debt owing on the real property that the Administrator is figuring out financing for her. There is significant tension between the decedent's daughters (Administrator and her sister) and the decedent's surviving spouse, so passing the real property in kind would not be feasible to all three parties. It is anticipated that a 90 day continuance to file the First and Final Report and Petition for Distribution of Decedent's Estate will be adequate time to resolve the issue of the real property.
